FEATURE

rites of passage

"My favourite experience on Rites of Passage was probably the Australian Defence Force recruitment speech. They explained to us how you get paid a salary while studying a degree. I also liked the freedom we had when we travelled to our activities." Matt

"My favorite part of Rites of Passage was exploring and learning about all the different universities such as ANU and UC in Canberra and Sydney Uni and UNSW and it really opened my eyes to life at university and how everything operates. The independence we had during the two weeks was enjoyable and making our way around Sydney and Canberra will help us in the future. Overall it was a great experience."

Finn

Rites of Passage was a very memorable experience that gave me an insight into the different courses that each uni provides, helping me to form ideas for the future. I loved all the opportunities that we were provided with such as the National Gallery of Australia and the Australian Museum which were displaying very interesting and insightful exhibitions. We also met some inspiring people who shared their knowledge with us about Aboriginal and Indigenous rights and their personal experiences related to this matter."

BIG ISSUE

Scientists have been warning us for years now about the imminent climate disaster that will come if we continue to burn fossil fuels and release carbon dioxide into the atmosphere. At the moment our average emissions stand at about 33 billion

A PASSION FOR ART

How old were you when you first fell in love

I was 10 years old when I first fell in love with art. It was so satisfying that I could drag a pencil across a page and create a picture. I would do art anywhere. I always loved to use chalk and draw on the driveway and use a stick as a pencil to make large pictures on the wall. I would draw anything I could think of. I do that now!

I am 15 years old now and I am still drawing. I'm either sketching animals or drawing fantasy creatures from my wild imagination. Half of the time I can't see my mum as the kitchen is drowning in my drawings.
